

## **Voter Registration**

You may determine the status of your voter registration, including the number of the precinct where you reside by checking your voter information card. You may also ascertain your precinct information by going to the New Mexico Secretary of State [voter portal](#) where you enter your name, date of birth and county of residence to access all your voter information, including the precinct of your residence.

Once you know your precinct number you will need to check the ward that encompasses your residence. Since Wards are Democratic Party creations, rather than State creations, you will need to use your Precinct Number to locate the proper Ward.

## **Wards & Precincts**

The County Party Website has a page that will help you determine which Ward encompasses your precinct. Please go to the website, and scroll through the [Wards and Precincts section](#) to determine which Ward that you should attend. You may also find this information at a [special section of our website here](#).
